

Insect Management

**Cotesia
orobenaе**

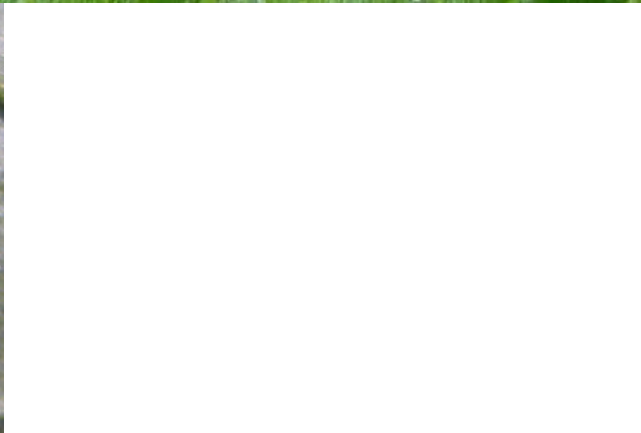

Pesticide Application

Backpack sprayers:

Avoid diaphragm pumps and tiny piston pumps.

Shindaiwa or Jacto piston pump much easier to pump.

Build new spray wand, with designated flow valve, which will accept any nozzle (TeeJet).

**Motorized backpack
sprayers are heavy and
don't necessarily
provide better coverage!**

PennsCreek

Crop Care with hydraulically controlled boom: height, folding, leveling, rinsing

Resistance Management

- **Minimize applications**
- **Alternate between resistance groups**
